## The Cloisters Museum and Gardens

The Cloisters Museum and Gardens, the branch of The Metropolitan Museum of Art devoted to the art and architecture of medieval Europe, was assembled from architectural elements, both domestic and religious, that largely date from the twelfth through the fifteenth century.

The building and its cloistered gardens—located in Fort Tryon Park in northern Manhattan—are treasures in themselves, effectively part of the collection housed there. The Cloisters' collection comprises approximately two thousand works of art. In summer months, with the gardens in bloom, the space transforms into a majestic outdoor location for special events.

Reception—400 guests

Dinner (Summer season)—150 guests

Dinner (Winter season)—250 guests
